

# Cell & Tissue Research

Volume 279 1995

## Editors

A. Oksche, Giessen (Coordinating Editor)	B. Russell, Chicago
H. Altner, Regensburg	B. Scharrer, New York
M.J. Cavey, Calgary	J.R. Sladek, North Chicago
D.E. Kelly, Washington, D.C.	N.J. Strausfeld, Tucson
B. Lofts, Norwich	L. Vollrath, Mainz
J.F. Morris, Oxford	

## Cooperating Editors

A.D. Blest, Canberra	D.R. Nässel, Stockholm
R.A. Cloney, Seattle	R. Pabst, Hannover
K. Dorshkind, Riverside	J.M. Polak, London
A.C. Enders, Davis	E. Reale, Hannover
J.B. Furness, Melbourne	J.-P. Revel, Pasadena
H.G. Hartwig, Düsseldorf	E.M. Rodríguez, Valdivia
C. Heym, Heidelberg	D.W. Scheuermann, Antwerp
A.F. Holstein, Hamburg	H. Schmalbruch, Copenhagen
M. Kawata, Kyoto	F. Sundler, Lund
R.O. Kelley, Albuquerque	A. Tixier-Vidal, Paris
H.-W. Korf, Frankfurt/M.	Y. Toh, Fukuoka
B. Krisch, Kiel	K. Unsicker, Heidelberg
W. Kummer, Giessen	E.D. Wachsmuth, Basel
R.R. Markwald, Charlestown	R.L. Wood, Los Angeles

Springer International

# Cell and Tissue Research

This journal was founded in 1924 as the *Zeitschrift für Zellen- und Gewebelehre*, from Vol. 2 (1925) it was published with the subtitle: *Continuation of the Schultze-Waldayer-Hertwig Archiv für mikroskopische Anatomie. Zeitschrift für Zellforschung und mikroskopische Anatomie* (Vols. 1–20) (1934) as: *Zeitschrift für wissenschaftliche Biologie* (Abteilung B) edited by R. Goldschmidt, W. von Möllendorff, H. Bauer, J. Seiler. Vols. 2–28 (1938) edited by R. Goldschmidt and W. von Möllendorff. Vols. 29–33 (1944) as: *Zeitschrift für Zellforschung und mikroskopische Anatomie, Abteilung A, Allgemeine Zellforschung und mikroskopische Anatomie*, edited by W. von Möllendorff and J. Seiler; from Vol. 34 without the subtitle, *Abteilung A, Allgemeine Zellforschung und mikroskopische Anatomie*. From Vol. 34 (1949) edited by W. Bargmann, J. Seiler; from Vol. 53 (1960) edited by W. Bargmann, B. Scharrer, J. Seiler; from Vol. 83 (1967) edited by W. Bargmann, D.S. Farner, A. Oksche, B. Scharrer, J. Seiler; from Vol. 125 (1972) edited by W. Bargmann, D.S. Farner, F. Knowles, A. Oksche, B. Scharrer. Beginning with Vol. 125 (1972) with the subtitle *Cell and Tissue Research*, beginning with Vol. 148 (1974) under the title *Cell and Tissue Research* and the subtitle *Continuation of Zeitschrift für Zellforschung und mikroskopische Anatomie* and beginning with Vol. 235 (1984) under the title *Cell and Tissue Research*. Beginning with Vol. 164 (1975), edited by W. Bargmann, D.S. Farner, B. Lofts, A. Oksche, B. Scharrer and L. Vollrath; As of Vol. 193 (1978), edited by D.S. Farner, B. Lofts, A. Oksche (Coordinating Editor), B. Scharrer and L. Vollrath; from Vol. 227 (1981), edited by D.S. Farner, B. Lofts, J.F. Morris, A. Oksche (Coordinating Editor), B. Scharrer and L. Vollrath; from Vol. 228 (1983), edited by D.S. Farner, D.E. Kelly, B. Lofts, J.F. Morris, A. Oksche (Coordinating Editor), B. Scharrer and L. Vollrath. Beginning with Vol. 235 (1984), title changed to *Cell and Tissue Research* (no subtitle). As of Vol. 251 (1988), edited by H. Altner, D.S. Farner, B. Lofts, J.F. Morris, A. Oksche (Coordinating Editor), B. Scharrer, N.J. Strausfeld and L. Vollrath. Beginning with Vol. 252/3 (1988), M.J. Cavey became one of the editors. From Vol. 254/1 (1988), edited by H. Altner, M.J. Cavey, B. Lofts, J.F. Morris, A. Oksche (Coordinating Editor), B. Scharrer, N.J. Strausfeld and L. Vollrath. Starting with Vol. 268/1 (1992), J.R. Sladek became one of the editors. As of Vol. 275/1 (1994) B. Russell became one of the editors.

Published: Vols. 1–33 (1924–1947) Julius Springer, Berlin, Vols. 34–35 (1948–1950) Springer, Wien, from Vol. 36 (1951) Springer, Berlin, Heidelberg.

## Copyright

Submission of a manuscript implies: that the work described has not been published before (except in the form of an abstract or as part of a published lecture, review, or thesis); that it is not under consideration for publication elsewhere; that its publication has been approved by all coauthors, if any, as well as by the responsible authorities

at the institute where the work has been carried out; that, if and when the manuscript is accepted for publication, the authors agree to automatic transfer of the copyright to the publisher; and that the manuscript will not be published elsewhere in any language without the consent of the copyright holders.

All articles published in this journal are protected by copyright, which covers the exclusive rights to reproduce and distribute the article (e.g., as offprints), as well as all translation rights. No material published in this journal may be reproduced photographically or stored on microfilm, in electronic data bases, video disks, etc., without first obtaining written permission from the publisher.

The use of general descriptive names, trade names, trademarks, etc., in this publication, even if not specifically identified, does not imply that these names are not protected by the relevant laws and regulations.

*While the advice and information in this journal is believed to be true and accurate at the date of its going to press, neither the authors, the editors, nor the publisher can accept any legal responsibility for any errors or omissions that may be made. The publisher makes no warranty, express or implied, with respect to the material contained herein.*

**Special regulations for photocopies in the USA:** Photocopies may be made for personal or in-house use beyond the limitations stipulated under Section 107 or 108 of U.S. Copyright Law, provided a fee is paid. All fees should be paid to the Copyright Clearance Center, Inc., 21 Congress Street, Salem, MA 01970, USA, stating the ISSN 0302-766X, the volume, and the first and last page numbers of each article copied. The copyright owner's consent does not include copying for general distribution, promotion, new works, or resale. In these cases, specific written permission must first be obtained from the publisher.

The Canada Institute for Scientific and Technical Information (CISTI) provides a comprehensive, world-wide document delivery service for all Springer-Verlag journals. For more information, or to place an order for a copyright-cleared Springer-Verlag document, please contact Client Assistant, Document Delivery, Canada Institute for Scientific and Technical Information, Ottawa, K1A 0S2, Canada (Tel: 6 13-9 93-92 51; FAX: 6 13-9 52-82 43; e-mail: cisti.docdel@nrc.ca).

This journal is included in the Springer Journals Preview Service, i.e. the tables of contents and BiblioAbstracts are available via Internet several weeks before the new issue reaches the subscribers. Tables of contents are free of charge; BiblioAbstracts are available for a small annual fee. Details can be obtained by sending an e-mail message containing the line help to svjps@vax.ntp.springer.de.

# Contents of Volume 279

- Abberton KM, Rogers PAW: Production of an endothelial cell migratory signal in rat endometrium during early pregnancy 215-220
- Abramsky O → Shezen E
- Aida K → Naito N
- Akimoto Y, Obinata A, Hirabayashi J, Sakakura Y, Endo H, Kasai K-I, Hirano H: Changes in expression of two endogenous  $\beta$ -galactoside-binding isolectins in the dermis of chick embryonic skin during development in ovo and in vitro 3-12
- Amano M → Naito N
- Anderson PAV → Schetz JA
- Andersson E, Bogerd J, Borg B, Sharp PJ, Sherwood NM, Goos HJT: Characterization and localization of gonadotropin-releasing hormone in the brain and pituitary of the three-spined stickleback, *Gasterosteus aculeatus* 485-493
- Avramovitch N, Hoffman A, Winaver J, Haramati A, Lewinson D: Morphometric analysis of atrial natriuretic peptide-containing granules in atriocytes of rats with experimental congestive heart failure 575-583
- Balm PHM, Iger Y, Prunet P, Pottinger TG, Wendelaar Bonga SE: Skin ultrastructure in relation to prolactin and MSH function in rainbow trout (*Oncorhynchus mykiss*) exposed to environmental acidification 351-358
- Bauer H-C → Ehler E
- Beaubien G, Schäfer MK-H, Weihe E, Dong W, Chrétien M, Seidah NG, Day R: The distinct gene expression of the pro-hormone convertases in the rat heart suggests potential substrates 539-549
- Beck F → Della NG
- Beesley PW → Bollner T
- Belai A, Cooper S, Burnstock G: Effect of age on NADPH-diaphorase-containing myenteric neurones of rat ileum and proximal colon 379-383
- Ben-Hur H → Shezen E
- Bergh A → Laurent C
- Berman BJ → Diekwisch TGH
- Bhagat HR → Ermak TH
- Bhattacharjee J → Nag TC
- Bickel D → Wrobel K-H
- Bönig I → Sierralta WD
- Bogerd J → Andersson E
- Bollner T, Howalt S, Thorndyke MC, Beesley PW: Regeneration and post-metamorphic development of the central nervous system in the protochordate *Ciona intestinalis*: a study with monoclonal antibodies 421-432
- Borg B → Andersson E
- Bowtell DDL → Della NG
- Braun B → Heym C
- Breidbach O, Dirksen H, Wegerhoff R: Common general morphological pattern of peptidergic neurons in the arachnid brain: crustacean cardioactive peptide-immunoreactive neurons in the protocerebrum of seven arachnid species 183-197
- Brierley GP → Mallery SR
- Budd TC → Jones SA
- Burnstock G → Belai A
- Burnstock G → Loesch A
- Burton GF → Maeda K
- Canonaco M → Tavolaro R
- Castagna C → Panzica GC
- Chan A-S → Gulati P
- Chrétien M → Beaubien G
- Connat J-L → Thiévent A
- Cooper S → Belai A
- Corvetti G → Daneo LS
- Couillaud F → Veelaert D
- Creveaux I → Meiniel R
- Cymborowski B, Korf H-W: Immunocytochemical demonstration of S-antigen (arrestin) in the brain of the blowfly *Calliphora vicina* 109-114
- Dahlqvist Å → Lidegran M
- Daneo LS, Corvetti G, Panattoni GL: Ontogeny of calbindin-D<sub>28K</sub> and calretinin in developing chick kidney 209-213
- Dannevig BH → Espenes A
- Dantzer V → Jones CJP
- Dastugue B → Meiniel R
- Day R → Beaubien G
- De Loof A → Veelaert D
- Della NG, Bowtell DDL, Beck F: Expression of *Siah-2*, a vertebrate homologue of *Drosophila sina*, in germ cells of the mouse ovary and testis 411-419
- Diederer JHB, Vullings HGB: Secretory granule formation and membrane recycling by the *trans*-Golgi network in adipokinetic cells of *Locusta migratoria* in relation to flight and rest 585-590
- Diekwisch TGH, Berman BJ, Gentner S, Slavkin HC: Initial enamel crystals are not spatially associated with mineralized dentine 149-167
- Dirksen H → Breidbach O
- Dirksen H, Homberg U: Crustacean cardioactive peptide-immunoreactive neurons innervating brain neuropils, retro-cerebral complex and stomatogastric nervous system of the locust, *Locusta migratoria* 495-515
- Domeij S → Lidegran M
- Dong W → Beaubien G
- Dougherty EP → Ermak TH
- Downer RGH → Hiraoka T
- Draeger A → Ehler E
- Durfort M → Montes JF
- Ehler E, Karlhuber G, Bauer H-C, Draeger A: Heterogeneity of smooth muscle-associated proteins in mammalian brain microvasculature 393-403
- Ekataksin W → Sato T
- Endo H → Akimoto Y
- Engström-Laurent A → Laurent C
- Ermak TH, Dougherty EP, Bhagat HR, Kabok Z, Pappo J: Uptake and transport of copolymer biodegradable microspheres by rabbit Peyer's patch M cells 433-436
- Espenes A, Press CM, Dannevig BH, Landsverk T: Investigation of the structural and functional features of splenic ellipsoids in rainbow trout (*Oncorhynchus mykiss*) 469-474
- Fernández-Llebrez P → Pérez-Figares JM
- Forsgren S → Lidegran M
- Franzén L → Lidegran M
- Franzoni MF → Tavolaro R
- Furness JB → Portbury AL
- Furuya S → Ornberg RL
- García-Valero J → Montes JF
- Gentner S → Diekwisch TGH
- González A, Smeets WJAJ: Noradrenergic and adrenergic systems in the brain of the urodele amphibian, *Pleurodeles waltlii*, as revealed by immunohistochemical methods 619-627
- Goos HJT → Andersson E
- Goping G → Ornberg RL
- Greenfield SA → Jones SA
- Gröschel-Stewart U → Paul ER
- Gulati P, Chan A-S, Leong S-K: Ultrastructural localisation of NADPH-diaphorase in the chick thymic medulla 405-409
- Gustafsson H → Lidegran M
- Haramati A → Avramovitch N
- Hayakawa Y → Hiraoka T
- Hellström S → Laurent C
- Henriksson R → Lidegran M
- Heumen WRA van, Nagle GT, Kurosky A: Ultrastructural localization of egg-laying prohormone-related peptides in the atrial gland of *Aplysia californica* 13-24
- Heym C, Braun B, Klimaschewski L, Kummer W: Chemical codes of sensory neurons innervating the guinea-pig adrenal gland 169-181
- Hildebrand JG → Homberg U
- Hirabayashi J → Akimoto Y
- Hirano H → Akimoto Y
- Hiraoka T, Hayakawa Y, Downer RGH: Immunocytochemical localization of trehalase inhibitor in some insect species 465-468
- Hirunagi K, Rommel E, Korf H-W: Ultrastructure of cerebrospinal fluid-contacting neurons immunoreactive to vasoactive intestinal peptide and properties of the blood-brain barrier in the lateral septal organ of the duck 123-133
- Hisa Y, Uno T, Tadaki N, Umehara K, Okamura H, Ibata Y: NADPH-diaphorase and nitric oxide synthase in the canine superior cervical ganglion 629-631
- Hoffman A → Avramovitch N
- Holmes C → Jones SA
- Homberg U → Dirksen H
- Homberg U, Hoskins SG, Hildebrand JG:

- Distribution of acetylcholinesterase activity in the deutocerebrum of the sphinx moth *Manduca sexta* 249–259
- Hoskins SG → Homberg U
- Hout BL → Mallery SR
- Howalt S → Bollner T
- Humbert W, Pévet P: Calcium concretions in the pineal gland of aged rats: an ultrastructural and microanalytical study of their biogenesis 565–573
- Ibata Y → Hisa Y
- Iger Y → Balm PHM
- Ikuta K → Naito N
- Inoue S: Ultrastructural and immunohistochemical studies of microfibril-associated components in the posterior chamber of the eye 303–313
- Inoue S: Ultrastructural organization of connective tissue microfibrils in the posterior chamber of the eye in vivo and in vitro 291–302
- Jonas L → Kultz D
- Jones CJP, Dantzer V, Stoddart RW: Changes in glycan distribution within the porcine interhaemal barrier during gestation 551–564
